

MBIA Member Rebate Program

The Member Rebate Program is the result of using the combined buying power of the Builders in the Association, combined with many other State Associations, to qualify for the same Manufacturer rebates the nation's largest Builders receive.

- The program does not require the Builder/Remodeler to change how they do business
- The supply chain is not affected
- No receipts are required
- A simple claim form is all that is needed to be filled out.
- Claims are filled quarterly for all homes or projects that are closed or completed.

The first step to get started is to register for the program. You can register online at www.hbarebates.com (select Montana), or print the Registration Form fax it to 800-977-5591. **Sign up today and we'll make your membership retroactive to January 2011!**

You can claim for any home, remodeling project, or multi-family units completed from January 1st - June 30th, 2011 that used any of the Manufacturers listed below.
